Industrial Visit feedback - Isiri farms.

Name : V. Aishwarya.

Class : 2nd Year BBA 4th Semester

Date of visit : 16th March 2026

The Industrial visit to Isiri farms was an enriching & enjoyable experience. It provided us with practical exposure to livestock care, especially in understanding cattle handling & dairy practices.

The cows were well maintained, clean, and appeared healthy. Proper hygiene practices were followed in their shelter. The cows were of good breed quality suitable for dairy production and well-adapted to farm conditions. We gained practical knowledge about dairy, its importance and cow care. Overall it was an excellent & well-organized industrial visit.

N. Narceena

IVth Semester BBA B'sec

Dayananda Sagar College of Arts, Science and Commerce

Isiri farms, Bengaluru, 16/3/2026

The Industrial ^{visit to} Isiri farms was a valuable and learning experience for the students. It helped us understand practical aspects of farming, sustainability, and agricultural management beyond classroom learning. It is a dairy farm producing raw milk to the community. We also understood how bulls are selected, cared for, and used in the breeding process to improve productivity. The staff at the farm explained the processes clearly and answered our questions patiently. We also learned about the animal health, hygiene practices, and the overall quality working environment of a modern dairy farm. The visit was really useful and informative for enhancing our understanding of dairy industry and connecting theoretical knowledge to real-life practices.
