Club Activity: Cyber security - Tech Talk on  
Network Analysis

Feedback.

U03CJ2480043

WireShark presentation clearly explained how packets are captured and analysed using filters. We understood how it helps identify network issues, security threats, and performance problems. The practical examples made it easier to connect with real-world usage. Overall session improved my knowledge about network protocols and packet-level analysis.

It was good ~~representation~~ session. It gives us more information about the computer networking. The presentation showed a solid understanding of the TCP/IP model and its layers. The explanation of protocols like TCP and IP was clear. Overall, a well-structured and confident presentation.

U03CJ24S0158

The presentation gave the end depth knowledge of Computer Networks. got to know the basic terminology and about cyber security. motivated to discover/use such tools. the explanation was interesting and engaging to listen. the presentation was helpful refreshing from regular class.

The Tech Talk was informative as we got to know the in-depth details about how the networks work. The speakers were very clear with explaining the concept and it was good to gain this type of knowledge.

The session was very interactive and engaging. We got to learn about working of networks and IP addresses. We also learnt about encryption of a message. We liked the content and it was very informative to be applied in future projects.

The session that was presented by our senior was very knowledgeable. It showed us how the encryption & decryption works. They provided us with some activity that we all enjoyed.
