● No

Any challenges or difficulties you faced?

81 responses

No challenges or difficulties faced

Nothing so far, everything has been easy thanks to the trainer's help

Trainer was just teaching us basics like what we actually learn from normal classes and gave us AI tools to build project and clarify doubts instead of himself doing it

Didn't reach our expectations

Back end implementation using Mongo DB

a little more session was required

No they helped very well

They were not clear about what they taught us

Nothing
