Club activity

Coding Club

Feed back

The club activity was very engaging and interactive. The text Charades and guessing round were fun and helped me to improve our quick thinking and Communication Skills.

The coding round was challenging yet enjoyable, giving us chance to test our logical and problem-solving abilities. Overall, it was a well-organised session that encouraged teamwork and active participation.

Feedback

The Club activity was held in DSCASC was structured properly and managed which helps to improve our analytical thinking and show off our knowledge in Technical field and the activities are organized in such a way that help us to involve in the game. It was much fun to play such games also the organization was very fair and clearly explained and transparent marks are given which is the good part I like in the Club Activity. It made us compete with our friends in our class which was more fun. I hope this will continue for upcoming days.

Thank you

Feedback

Date: 16/7/2025

On 16/07/2025 our department has conducted the club activity which included with riddles round, tech exact round and more which indeed helped me to know many technical terms and it was fun playing techy riddles. It was both refreshing play as well as informative time spent. I would like to thank my department for this.

TANMAYI R
PO3CJ245126108.

On Wednesday, 16/07/2025, the Computer Science Department organized a fun and engaging club activity with three rounds: riddle interpretation, code debugging, and tech-based role play. I really enjoyed the interactive learning approach and teamwork involved. This activity helped me improve my logical thinking, problem solving, and communication skills.
