24.	Summary of the Event	Department of Computer Applications -MCA organized a Preplacement orientation session for the students of I year. Mr. Prakash from Placement Office addressed the students about campus placement process. He spoke at length about resume preparation, documents to kept ready and finally about skills building. He emphasized on certifications from companies like Microsoft, Google, Salesforce, AWS etc. to have a hold on the skills. He told students to expect high packages only if they have the required skill set. Projects and application development is a must for securing good jobs. The students asked Mr. Prakash all their doubts regarding campus drives. Overall, it was a good session for the students.

Feedback

It was an insightful session which highlighted the importance of continuous upskilling. He explained us about on how to continuously upskill ourselves in domains which we are interested in. He advised us to select few domains and develop projects on those particular domains (min 4). He explained us about the selecting process in the companies. First round will be Aptitude, next it will be GD, Technical Round and then HR round. He asked us to do 3 or 4 certifications by google, AWS, IBM etc which improves our employability. Placement officer has given us a much better understanding on how to present my technical skills to potential employers.

The session about placement gave us an very deep knowledge about how placements operate and how we can be job ready. we learnt things like how we can show our skills, how we can be updated to the modern stuff. and also the projects have to be done on how various domains, various technology. Anyways, this was a great session and we will be thrilled to more sessions like this.

The session was one of the most engaging and the learning one about the placements. It helped me in gaining the knowledge about how need to be prepared for campus recruitment and how we need to update the skill required by the companies which are hiring. And it was the great session and we are thrilled to attend more and more of it.

The Session on career guidance & skill mapping was truly a great session. It bridged the gap between academic learning & industry expectations by detailing exactly what hiring companies are looking for today. I feel much more confident about my campus recruitment journey now & can't wait for the next installation.
