FEED-BACK

APP-ON TRAINING PROGRAM .DATA-BASE DESIGN BY PROFILE-IN

This Profile Workshop was held for 8 days. where we developed a Project of Gaming Club. For this project we used the platforms like Eclipse, MySQL (JDK), Github, and a google website Springboot-Initializer. In these days we learnt the backend development for the Gaming Club project. We created the project data like the code from the Initializer and pushed into github and imported the files in Eclipse and did our whole project in eclipse platform which helped us to learn new topics and the sessions were very knowledgeable. The trainer explained each and every topic

The profile training held for 8 days. In this training, I learnt the practical knowledge of Springboot which is used in the project Gaming Club. This practical knowledge is very useful in the future for developing various Java projects. The trainer is very knowledgeable.
