

Seminar Hall: Epicenter of Collaborative Learning and Innovation

Tucked within the sprawling campus of Dayananda Sagar College of Arts, Science and Commerce (DSCASC), the Seminar Hall serves as the pulsating heart of intellectual discourse, where ideas ignite and futures are shaped. Affiliated with Bangalore University, this versatile venue is the go-to space for hosting a myriad of workshops, guest lectures, seminars, and interactive sessions, accommodating up to 120 eager participants in an environment designed for maximum engagement and accessibility.

Spanning a spacious 2,000 square feet, the hall boasts tiered wooden seating arranged in a semi-circular amphitheater style, ensuring unobstructed views and optimal acoustics for every attendee. Bathed in natural light from expansive clerestory windows and strategically placed LED panels, the space exudes a modern yet inviting warmth, with earthy teak paneling and subtle acoustic baffles that minimize echoes during dynamic discussions. At its core is a robust ICT ecosystem: a high-resolution 4K projector paired with a retractable motorized screen for seamless presentations, wireless microphones for panel Q&As, and an integrated Bose sound system that amplifies every voice—from keynote addresses to breakout group debates. A podium with built-in controls and a document camera supports real-time annotations, while multiple HDMI ports and Wi-Fi hotspots enable laptop integrations and live streaming for hybrid events.

The hall comes alive during peak hours, as seen in vibrant gatherings of faculty and students huddled over case studies on social media's impact on mental health or statistical analyses via SPSS. Workshops on emerging topics like digital ethics and sustainable business practices unfold here, with flip charts, whiteboards, and collaborative tools fostering hands-on learning. Safety and comfort are paramount, with fire exits, air-conditioned zoning, and ergonomic seating that sustains long sessions without fatigue.

Under the stewardship of the IQAC and department coordinators, the Seminar Hall adheres to UGC standards, promoting inclusive, tech-savvy education. It transcends mere gatherings, cultivating critical thinkers and networkers who emerge ready to lead in a global arena. At DSCASC, this hall isn't just a room—it's a launchpad for transformative ideas and enduring connections.
