Annual Report June 2025 to May 2026

Eco Unit – PRAKRUTHI

The ECO UNIT –PRAKRUTHI of Dayananda Sagar college of Arts, Science and commerce is an initiative aimed at promoting environmental awareness, conservation, and sustainability within the college community. Its primary objective is to foster a sense of responsibility among students, faculty, and staff towards protecting the environment.

The Eco Unit organized a series of impactful environmental initiatives throughout the academic year to promote sustainability, environmental awareness, and active student participation. The Green Campaign encouraged eco-friendly practices, environmental responsibility, and campus cleanliness through awareness activities and community engagement. To strengthen institutional collaborations and broaden environmental perspectives, the Eco Unit facilitated the signing of a Memorandum of Understanding (MoU) with sustainability-focused organizations, followed by a panel discussion featuring experts who shared insights on climate action, sustainable development, and environmental conservation. The Eco Mind Challenge further engaged students in developing innovative ideas and solutions to environmental issues through interactive competitions and knowledge-based activities, fostering critical thinking and ecological consciousness.

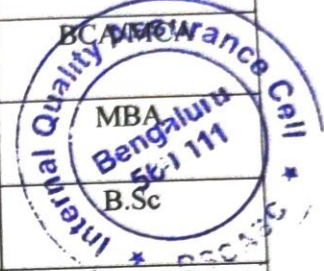

The Eco Unit also conducted hands-on sustainability programs that emphasized resource conservation and environmental stewardship. The Trash to Treasure initiative inspired students to creatively reuse waste materials, highlighting the importance of recycling and upcycling in reducing environmental impact. Under the Vriksha Sena program, a tree plantation drive was organized to enhance green cover and promote biodiversity within the campus and surrounding areas. This initiative was complemented by a Zero Waste Workshop, which provided practical training on waste segregation, composting, recycling, and sustainable living practices. Collectively, these activities strengthened environmental awareness, encouraged responsible behavior, and reinforced the institution's commitment to building a greener and more sustainable future.

Events during June 2025 – May 2026

Sl. No.	Event Name	Date	Web link	No. of Students benefited	Dept
