22	**Attendance Sheet Attached?** *	Yes	23	**Photographs of the Event**		Yes
24	**Summary of the Event** (Amund 100 words)	A Bird Conservation Workshop was organized for degree students to create awareness about the importance of birds and the need to protect their habitats. The session aimed to educate students about different bird species, their ecological significance, threats to their survival, and practical methods of bird conservation. The programme began with an introductory session on bird identification and the role of birds in maintaining ecological balance. Resource persons explained the major threats faced by birds, including habitat destruction, pollution, climate change, hunting, and excessive use of pesticides. Students were also introduced to methods of observing and identifying birds in their natural surroundings. An interactive session and bird-watching activity were conducted as part of the workshop. Students learned how to observe birds without disturbing them and understood the importance of protecting nesting and feeding areas. The workshop was informative and engaging, and it helped students develop a greater appreciation for birds and biodiversity. It also encouraged them to take active steps towards protecting birds and their habitats.
