FEEDBACK :

On,

- ① "Friends of Police"
- ② "Building a Safe Bangalore".

The awareness session conducted by the police department - including the ACP, CS, constables and Traffic police - was very informative and useful. They spoke about women's safety and introduced the 'KSP app', which allows people to register complaints online without visiting a station. They also offered a one-day 'Friends of Police' opportunity for students.

The traffic police created awareness about the 'BTP Aaram' app, which provides similar online complaints and service options. We also learned about the 'DrugFree' app, where anyone can report drug transportation, cultivation or usage - especially important around colleges.

Additionally, they explained the concept of a place where people can register complaints even using their mobile phones.

Overall, the session gave us clear guidance on safety and the digital tools available to help citizens.

FEEDBACK OF SEMINAR ON AWARENESS PROGRAM

An awareness seminar was conducted by Karnataka State Police and Traffic Department, where students were introduced to the Karnataka State Police App and Drug-Free App, guided to install them, and informed about their key features and benefits. The officers also explained the concepts of Safety Islands for emergency support, shared important helpline numbers, and provided guidance on reporting cybercrime. The Traffic Police Department demonstrated their advanced traffic control center and technologies like automatic number plate detection used to monitor vehicles and enforce Traffic laws. The seminar concluded with students taking a pledge to support safety and drug-free society.

The session was extremely valuable for us as it increased awareness about public safety, cyber protection, responsible use of technology. Learning about emergency systems, helpline numbers and real-time traffic monitoring helped us understand how modern policing works and how can we stay safe. The drug free initiatives and motivational talk by ACP inspired us to make positive choices and contribute towards a safer community. Overall, the seminar empowered us to be responsible citizens and encouraged us to actively support law enforcement and social well-being.
