22.	Attendance Sheet Attached?	Attached	23.	Photographs of the Event	Attached
24.	Summary of the Event	On 07/04/2025, 40 BBA and B.Com students undertook an industrial visit to Adamiya Chetana, a renowned NGO focused on social service and sustainable practices. The visit aimed to expose students to real-world applications of social entrepreneurship and operational management in a non-profit setting. Students observed the automated mid-day meal kitchen, interacted with staff, and learned about efficient resource utilization and community service. The experience broadened their understanding of CSR and sustainability in business. Outcome: Students gained practical insights into socially responsible operations, inspiring several to consider community-focused projects and careers in the development sector.

Adanya Chethana

Our industrial visit to Adanya Chethana was a highly enriching experience. The organization, known for its strong commitment to social service and sustainability, gave us valuable insights into large-scale food preparation and eco-friendly practices.

During the visit, we observed their centralized kitchen operations where nutritious mid-day meals are prepared for thousands of school children every day. The use of modern technology combined with a systematic approach to hygiene and efficiency was impressive. The facility also incorporates green practices such as the use of solar power, rainwater harvesting and bio-waste conversion, making it a model for sustainable operations.

The staff was very welcoming and informative, patiently answering our questions and explaining the functioning of various systems in detail. The visit not only educated us on food distribution and resource management but also inspired us to contribute to society in meaningful ways.

Overall the visit to Adanya Chethana was both educational and motivating, leaving a lasting impression on the importance of service, sustainability, and innovation.
